

AADITYAVARRDHAN JAY SINGH

AI / ML Engineer Associate | Python | TensorFlow | Computer Vision | Flask | SQL

+91-8084631180 | aadisingh.5353@gmail.com | www.linkedin.com/in/jay13529 | https://github.com/aadisingh5353-max | Chhapra, Bihar, India

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with a focused interest in AI/ML, computer vision, and application development. Hands-on experience building CNN-based emotion detection models, Flask-MySQL web applications, and C#/.NET desktop applications. Strong foundation in Python, TensorFlow, data preprocessing, OOP, DBMS, DSA, and SDLC, with an analytical mindset and ability to collaborate in fast-paced technical teams.

EDUCATION

Chandigarh University, Mohali, Punjab
St. Joseph's Academy, Chhapra, Bihar

B.E. - Computer Science and Engineering | 2023 - 2027 | CGPA: 6.70
Intermediate (CBSE) | 2020 - 2022 | Percentage: 70.8%

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, C#, JavaScript

AI / Data Science: Machine Learning Basics, Deep Learning Basics, CNN, TensorFlow, NumPy, Pandas, Data Preprocessing

Web & Software Development: HTML, CSS, Flask, .NET Windows Forms, ASP.NET Basics, REST API Basics, SDLC

Databases & Tools: MySQL, DBMS, Git, VS Code

Core Concepts: Data Structures and Algorithms, OOP, CRUD Operations, MVC Basics, Technical Documentation

PROJECTS

Emotion Detection Using Deep Learning Algorithm / Python, TensorFlow, NumPy, Pandas | Jan - Apr 2024

- Developed a CNN-based facial emotion classification model using image datasets and supervised learning workflow.
- Performed dataset preprocessing, model training and evaluation to strengthen practical understanding of AI/ML development.

Student Database Analysis - Full-Stack Web Application / Flask, MySQL, HTML, CSS, JavaScript | Jul - Nov 2025

- Designed a scalable academic record management system with secure create, read, update and delete operations.
- Built a normalized MySQL database schema and connected it with a Flask-based web interface for efficient record handling.

Enhanced Tic Tac Toe - AI-Based Desktop Application / C#, .NET Windows Forms | Jan - Apr 2025

- Developed an AI-enabled desktop game with adaptive difficulty, undo functionality and score tracking features.
- Applied OOP concepts, event handling and basic game logic to improve application flow and user interaction.

TRAINING

C#.NET Full Stack Development / ASP.NET, SQL, MVC, CRUD Operations |

- Developed dynamic web applications using ASP.NET and implemented SQL-based CRUD operations.
- Worked with MVC architecture and basic full-stack development practices for application building and debugging.

CERTIFICATIONS

Blockchain Beginners - Coursera (2023) | Ethical Hacking - Coursera (2024) | Mathematics - LinkedIn (2024) | Database Management Systems - Meta (Jan 2025) | Python for Data Science and Machine Learning - Coursera / self-paced learning (In Progress, 2025)

CORE STRENGTHS & ROLE FIT

Analytical thinking | Problem-solving mindset | Team collaboration | Communication skills | Quick learning | Passion for technology and innovation | Research-oriented approach

Target roles: AI / ML Associate, Graduate Engineer Trainee, Software Engineer Trainee, Data Analyst Intern, Research Associate.
